PROFILE

To obtain a Frontend Developer Internship where I can utilize my skills in HTML, CSS, JavaScript, and modern frontend frameworks to contribute to innovative projects and grow professionally while continuing my MERN Full Stack development education.

PROJECTS

INTERACTIVE QUIZ APP

- Created a quiz application using JavaScript with dynamic question integration.
- Implemented features such as Dark mode.

HEAD & TAIL GAME

- Created a coin flip simulation game using JavaScript, enhancing functionality with dynamic visuals.
- Ensured smooth gameplay through optimized scripting and responsive design.

FIGHTING GAME LIKE TAKKEN

- Developed a browser-based game using JavaScript and CSS animations, featuring a turn-based attack system.
- Designed a responsive user interface and implemented visual effects for a fun and engaging gameplay experience.
